

Week 1 — Customer-Centric Foundations · Facilitator Overview

Facilitator-only companion to `labs/README.md`. The per-day facilitator guides are the `day-*.md` files in this folder.

Facilitator pre-flight checklist

- ☐ Confirm every participant has access to a generative AI tool (ChatGPT, Claude, or equivalent) before Day 1 starts.
- ☐ Pre-print or share digitally: the **Persona Validation Canvas** (Day 3), **Pain-Point Severity Matrix** (Day 4), and **Problem Statement Template** (Day 5).
- ☐ Form cohort quads by the end of Day 1 morning; quads persist through Week 3.
- ☐ Prepare the **running case study** — the academy uses a shared reference product "*FieldPulse*", a mobile-first dispatch tool for field service technicians. This appears in every day's examples; read the FieldPulse brief in `day-01-ai-fundamentals.md` before facilitating.
- ☐ Review the Week 1 capstone readout rubric (in `labs/README.md`).

Per-day facilitator guides
