

Week 4 — Technical Architecture & Constraints · Facilitator Overview

Facilitator-only companion to `labs/README.md`. The per-day facilitator guides are the `day-*.md` files in this folder.

Facilitator pre-flight checklist

- ☐ Confirm every quad's locked Week-3 PRD is accessible Monday morning.
- ☐ Pre-print or share digitally: the **STRIDE Card**, the **C4 Container Skeleton**, the **SLO Worksheet**, the **TCD Template**.
- ☐ **Re-establish AI norms.** Prompt patterns from Week 1 + the provenance-log discipline from Week 2 Day 4 both apply to all AI use this week.
- ☐ Coach yourself on the **most common Week 4 trap**: quads making architecture decisions instead of surfacing trade-offs. Hold the line: the architect decides; the TPM clarifies.

Per-day facilitator guides

- `day-01-monolith-vs-microservices.md`
- `day-02-security-compliance.md`
- `day-03-system-components.md`
- `day-04-slos-rate-limits.md`
