

Stance Stamp Sheet — Four Stances

Day 1 · Activity 1 handout. Record your quad's stance for each of the 8 triage cards. One stamp per card, plus a one-line reason grounded in the three-question frame.

The four stances

Stamp	Use when
 Monolith fits	One team, uniform load, no independent failure domain needed
 Modular monolith fits	One team now, but boundaries worth enforcing for later extraction
 Microservice fits	Two or more of the three questions answer "yes, with evidence"
 Need more info	Two or more answers are "we don't know"

Stamp grid

Card	Deploy cadence?	Failure domain?	Scaling axis?	Stance stamp	One-line reason
1					
2					
3					
4					
5					
6					
7					
8					

In the three question columns, write Y / N / "don't know" with a word of evidence.

Strongest-case summary

- **Strongest case to SEPARATE — card ____:**

- **Second strongest to SEPARATE — card ____:**

- **Strongest case to STAY TOGETHER — card ____:**

- **Second strongest to STAY TOGETHER — card ____:**

- **Card we disagreed on — card ____:** the unresolved question is _____

A stance is a starting point for the architect, not a verdict.
"Need more info" is an honest, informative answer.
