

Week 5 — Technical Infrastructure & Modeling · Facilitator Overview

Facilitator-only companion to `labs/README.md` . The per-day facilitator guides are the `day-*.md` files in this folder.

Facilitator pre-flight checklist

- ☐ Confirm every quad's locked Week-4 TCD is accessible Monday morning.
- ☐ Pre-print or share digitally: the **Data Model Worksheet** (Day 1), **Cloud Topology Card** (Day 2), **API Contract Skeleton** (Day 3), **Sequence Diagram Template** (Day 4), **Monitoring Plan Skeleton + AI Validation Log** (Day 5).
- ☐ AI norms reminder: Week-2 prompt patterns + Week-4 AI norms still apply. Day 5 introduces explicit AI-summary validation as a new discipline.
- ☐ Coach yourself on the **most common Week 5 trap**: quads making engineering decisions instead of surfacing models and trade-offs. The job is to read and reason, not to decide.

Per-day facilitator guides
