

Day 3 — Communicating Technical Trade-Offs to Non-Technical Partners · Facilitator Guide

Companion to `labs/day-03-tradeoff-communication.md` .
Facilitator-only — do not hand to participants.

Activity 1 — Translation Drill

Cues:

- The "p99 → p95" translation for an eng director should still be technical. The audience matters; eng directors don't need re-framing into business terms — but they need the trade-off named clearly.
- For the **CFO** (#3), watch for quads who don't actually compute the cost. "Additional region" without a dollar number is a non-answer.
- For **Sales lead** (#5), watch for quads who don't anticipate the obvious next question: "what's the revenue at risk?"

Facilitator reflection prompts (end of day)

- Which quad's "decision sentence" was sharpest? Hold up Friday.
- Which quad over-loaded the brief beyond one page? Coach to cut.
- Did anyone use the wrong stakeholder currency (cost language for a customer-impact stakeholder, etc.)? Common; surface.
- Did the cohort engage with the "what would change our mind" prompt or skip it? Skipping = brittle brief.
