

Day 4 — AI-Augmented Stakeholder Requirement Summaries · Facilitator Guide

Companion to `labs/day-04-ai-stakeholder-summaries.md`. Facilitator-only — do not hand to participants.

Activity 1 — Prior-Context Summary (with Validation)

Cues:

- The validation step is the muscle. Don't let quads skip it. If they say "looks fine" — push them: "did you actually open Section 3 of TCD and verify?"
- The gap list is high-leverage — it's what you'll research before the meeting (or admit during it).

Facilitator reflection prompts (end of day)

- Which quad's objection map is most realistic? Hold up Friday morning.
- Which quad's opening was sharpest? Hold up.
- Did anyone skip the validation step on AI outputs? Coach Friday morning before the simulation.
- Did any quad list 6+ non-negotiables? Coach to cut to 3 — they'll fold tomorrow if they have too many.
