The three rounds

Round	Author defends	Stakeholder plays	Pressure
1 — Architecture / SLO	A TCD Section 4 SLO or Section 5 trade-off	High-power technical (architect / security / eng director)	Surprise objections
2 — Scope	PRD Section 3 non-goals + Section 11 out-of-scope	Non-technical (PM director / CS lead / sales VP)	Scope-creep ask
3 — Resource / timeline	The plan against an impossible ask	Executive (CFO / GM)	Ship sooner / lost engineer / scope added

The polish bar (before you ship Section 5)
