

Final Presentations

Week 8 • Day 5 • Course Closure

TPM Academy

The Friday Rubric

Score on the rubric, not against other quads

Friday Presentation Rubric

Dimension	Weight
Customer + problem clarity	15%
Integrated artifact set	15%
AI Spec quality	20%
Trade-off honesty	15%
Outcome thinking	10%
Delivery readiness	10%
Presentation craft	15%

Score 0–4 per dimension.

The Presentations

15 minutes + 5 Q&A per quad

Cohort Scoring Discipline

- Score **during** the presentation, not after
- Specific notes per dimension
- **Whole-number** scores; no half-points
- Score against the **rubric**, not against other quads

Don't grade on a curve. If two quads score 3.5, both are 3.5.

Cohort Retrospective

30 minutes; 3 rounds

The 3 Retrospective Rounds

1. **What surprised you?** One thing each — content, process, yourself
2. **What muscles are you keeping?** 2 muscles each
3. **What habit are you retiring?** 1 habit each

Three artifact lists for the cohort to take with them.

Course Closure

45 minutes

Closure Components

1. **Post-assessments** (15 min): PM + Data Literacy — same instruments as pre-assessments
2. **Certificate distribution** (5 min)
3. **Closing words from instructors** (10 min)
4. **Final round-robin** (15 min): one sentence each on what the academy gave them

Materials You Take With You

- **Artifact templates** — Product Requirements Document (PRD), Technical Concept Document (TCD), Technical Modeling Document (TMD), Stakeholder Engagement Plan (SEP), Delivery Plan (DP), AI Spec — for use in your next role
- **Techniques** — acceptance criteria (AC), non-functional requirements (NFRs), Service Level Objectives (SLOs), Azure DevOps (ADO), value stream mapping (VSM)
- **Pattern Library** — cumulative across Weeks 2–8
- **"Next 90 days" reading list** — 3–5 books / podcasts / talks
- **Cohort connections** for ongoing support

The 5 Muscles of the Academy

Customer-centric

(Wk 1) Personas, pain points, problem framing

Strategic + measurable

(Wk 2) NS, Tier Sheet, journey, design principles

Engineering-readable

(Wk 3 + 8) PRDs, AC, NFRs, AI Spec

Architecturally aware

(Wk 4 + 5) TCD, TMD, trade-offs, SLOs, sequences

Stakeholder-fluent

(Wk 6) Mapping, engagement, negotiation

Delivery-disciplined

(Wk 7) ADO, outcome tracking, VSM, bottlenecks

Congratulations, TPM Academy Cohort

You shipped 5 sibling artifacts + an AI Spec + a
capstone.

Take the muscles. Use the templates. Keep the discipline.

Final Round-Robin

One sentence: what did the academy give you?
