

Friday Presentation Rubric

Day 5 scorecard. Score each quad's 15-minute capstone presentation: **0–4 per dimension**, whole numbers only; apply the weights for a total out of 4.0. Score **against the rubric, not against other quads** — don't grade on a curve. Each cohort member scores every quad; the instructor scores separately. **Final = (peer mean + instructor) / 2.**

Quad presenting: _____ Scorer: _____

Dimension	Weight	Exemplary (4)	Score (0–4)
Customer + problem clarity	15%	Engineer or stakeholder could understand the customer's pain in 90 seconds	
Integrated artifact set	15%	All 6 artifacts referenced; references are consistent	
AI Spec quality	20%	Engineering-ready; integrates PRD/TCD/TMD outputs; provenance log included	
Trade-off honesty	15%	At least 2 trade-offs named with cost + revisit trigger	
Outcome thinking	10%	NS / Tier-Sheet / leading-indicator vocabulary used naturally	
Delivery readiness	10%	DP-light shows backlog, tracking, one bottleneck experiment	
Presentation craft	15%	All quad voices speak; time-managed; questions	

Dimension	Weight	Exemplary (4)	Score (0–4)
		answered with curiosity, not defensiveness	

Weighted total (out of 4.0): _____

Scoring discipline: score *while listening*, not afterward — memory degrades. Keep a specific note per dimension. Whole-number scores only; no half-points.
