

Week 3 Handouts — Requirements Engineering & PRD Mini-Capstone

Participant-facing handouts for Week 3. Each is a standalone template, card, pack, or checklist — distribute (print or share) before the day and activity that uses it. Templates are meant to be filled in; the triage-pack answer keys stay in the facilitator lab files, not here.

Design principle: these are working surfaces, not narration. The AC and NFR triage packs are deliberately spoiler-free — the judging is the work.
